We cannot see that as citizens of Victoria we are called on to be excessively jubilant over the location of the Seat of Government at this place. The movement was one in which the whole country possessed a direct interest, and the whole country has equal cause to rejoice at its success. Local considerations never weighed a feather with us—never influenced our policy in the least. The question was one of simple expediency and economy. Common sense brought all to protest against a waste of public money by the continuance of the offices at a point so ill-adapted for them as New Westminster. It was not the selfish feeling engendered by a prospective rise in real estate, or a desire to profit by the yearly expenditure in our midst of a few thousand dollars by the officials that caused Victoria and her representatives to take so decided a stand in this respect. Victoria's opposition sprang entirely from a desire to have the Government efficiently and economically administered by the location of its seat at a point that could be easily reached at all seasons and at all times—where it could claim and receive, at a moment's warning, the support of Her Majesty's naval forces, and where it could have easy communication with every part of the world. Such are the motives which actuated Victoria in urging its claims upon the country, which claims are enhanced by her possession of the buildings necessary to the proper transaction of the public business. The same feeling actuated the hundreds in the Upper Country who signed the memorials praying for the location of the Capital at Victoria. It is a mistake to suppose the petitioners could have been actuated by any feeling of hostility to New Westminster; and it is an equally fallacious idea that Victoria wished to sacrifice the country to secure her own prosperity. The movement, from first to last, was a patriotic one. The entire country is deeply interested in having its Government administered in the most economical manner consistent with efficiency. As proof of the correctness of this we have only to point to the vote taken upon the resolution on Thursday. Both mover and seconder are popular members representing interior constituencies; only two popular members voted for the retention of the Seat of Government at New Westminster; and the member for Big Bend who supported New Westminster's claims last session, declared in favor of Victoria on Thursday. The result proves that the agitation was not local and that it was not instituted for local aggrandizement or preferment. The interests of the Upper Country were as much involved by the question at issue as those of the lower, and such being the case we cannot understand that Victoria alone is called on to go into hysterics of delight over the attainment of the long sought for object.

LAST NIGHT'S DESPATCHES.

LEGISLATIVE COUNCIL.

THURSDAY'S PROCEEDINGS CONCLUDED.

NEW WESTMINSTER, April 2.—Hon Helmecken's motion for a Court of Appeal, postponed.

Petition for an increase of duty on imported fruits, carried.

Second reading of the Supreme Court Bill, Committee appointed to amend—Hons Walkem, Woods, DeCosmos, Robson and Ball.

Third reading of the Limitation of Actions Bill, recommended by 9 to 4.

Hon DeCosmos' motion to change the Constitution of the Council, making it two thirds elective, again postponed.

Hon Helmecken's motion on the Cowichan road, carried.

Hon Helmecken's motion extending the Vancouver Island Road Act to Westminster and its neighborhood, carried.

Hon Robson's motion for the location of a road by Pitt river as far as St. Marys, on the North side of the Fraser, carried unanimously.

Hon Barnard's motion on the Road tolls, postponed.

NEW WESTMINSTER, Friday, April 3.—Councillors met at two o'clock. Members present, 18.

NOTICES OF MOTION.

Hon DeCosmos on Monday next will ask leave to introduce a Bill entitled an Ordinance to encourage the establishment of Insurances, Savings and Loan Societies.

Hon McDonald will ask the hon Colonial Secretary on Monday next whether the contract for carrying the mails from New Westminster to the upper country have been given out, and if so, to whom and for what term and on what conditions.

Hon Smith gives notice that on Monday next he will ask the Colonial Secretary if any provision has been made for the transmission of regular mails between Victoria and the Kootenay and Columbia Districts, and if none, to ask that a sum not less than \$3000 be placed on the estimates for that purpose.

Limitations of Actions Bill postponed until Wednesday.

Howe Sound Copper Company. Petition from the Company praying for more liberal terms and conditions than the Government had given them. The House went into committee, and after a lengthy discussion, in which most members joined, finally adopted the following resolution: Moved by Hon Helmecken, seconded by the hon Y. ung, that this Council is of opinion that some general law regulating the acquisition of mineral lands is urgently required, and that the petition of the Howe Sound Copper Company be referred to the Executive with a recommendation that the Company be permitted to purchase at the upset price of \$1 per acre, a tract of land suited to their purposes.

House adjourned till 3 on Monday.

Eastern States.

WASHINGTON, April 1.—Mr Stansbury argued against attempt of managers to prove a conspiracy between Gen. Thomas and the President. Butler replied at length showing President guilty of conspiracy.

Mr Burleigh testified that on the evening of February 21st, he had an interview with Gen. Thomas, who said he should take possession of office at 10 o'clock next morning. He also stated that he would use force to take possession if refused. Gen Thomas said that if Secretary Stanton barred the doors he would break them down.

A question was put, whether witness had heard Gen. Thomas make an address to a number of clerks in the War Office about a week or ten days prior to February 21st, in which he said he would relax the harsh rules of his predecessor and treat clerks as gentlemen.

General Thomas subsequently told witness that if he had not been arrested on the morning of February 23d, he would have broken down the doors and taken possession of the War Office.

Several other witnesses testified to similar language on the part of Gen. Thomas, and the Court adjourned.

The Abyssinian War.

The New York Herald's dispatch says the Abyssinian expedition arrived at Lake Ashage on March 6th. The difficulties of the expedition increase as it proceeds. The natives are hostile, the country barren and the roads very bad. King Theodore has despoiled the country far and wide.

Europe.

VIENNA, April 1.—The Reichsrath passed the bill providing for general education by a system of public schools.

The flag of the North German Confederation was hoisted yesterday by all the German vessels in port, in accordance with the notice by the King of Prussia. Royal salutes were fired and the day was observed by a general celebration.

In the House of Commons Mr Hunt, Chancellor of the Exchequer, asked leave to bring in a bill for the purchase by the Government of all the telegraph lines in the Kingdom. He explained that the bill provided for arbitrators, who are to decide what prices are to be paid.

The revenue returns of the first quarter show a deficiency of five millions sterling.

HOLLOWAYS PILLS—Restoratives. Tre atmen It has been confirmed by the experience of thirty years that these Pills constitute the best alternative and tonic medicine hitherto available by the public. It is enough to say that a short course of these purifying Pills have in numberless cases been marked by the most gratifying results, when the invalids were becoming daily weaker and worse, though no particular disease could be detected. Holloway's Pills purify the source of life, re-kindle the fading energies, revive the sick and delicate, and raise up the broken-down. This medicine is especially recommendable because it is so well suited to the community at large, and its innocent nature precludes the possibility of its causing mischief under any circumstance whatever.

A Most Strange Story.

A correspondent writes us from Waterloo, Iowa, asking if we know of one Edgar Burnham, and of his history.

We do. And as it is a strange, true one, known to hundreds, we give it in the Democrat, as it is, that we may correct some errata, those who speak of him have fallen into. Eight years since, when we were engaged as city editor of a Milwaukee paper, there lived in this State an editor named Powell, now connected with a Chicago paper, we think—he is, unless he has quit it lately.

In 1862 Powell was married to a Miss Ellen Burnham, of Brodhead, Wisconsin, after a courtship of some months. Miss Burnham's parents were old residents of Brodhead, and of high respectability. The daughter taught music, had a large number of pupils, and was very attractive. Powell lived with her as a husband two years, she being all that time a good wife in all respects, presenting him with but one child. At the expiration of two years, when about twenty one years of age, Mrs. Powell's voice changed; she grew light whiskers and gradually changed into a man, in all respects, as if nature, anxious for a freak, had turned a portion of herself wrong side out!

The husband and wife separated, when the wife became a man, and Mrs. Ellen Powell took the name of Edgar Burnham, donned male attire, sought and obtained employment as a clerk in Chicago, and lived a single young man for one year.

During this time he fell in love with a niece of Senator Morgan, of New York, but did not marry her, for reasons not pertinent to this article. But about the end of the year he did marry a young lady of Brodhead, Wis., a Miss Gertrude Everett, who was a music pupil of his when he was Miss Ellen Burnham, over three years previous to the marriage. This second marriage was about two years ago. Soon after the marriage 'Edgar' Burnham and wife removed to Waterloo, Iowa, when they now reside, or did not long since.

The former girl is now a man—the former wife is now a husband—the former mother is now a father—the former young lady teacher of a young lady is now that young lady's husband! Truth is indeed stranger than fiction, and the above statement of facts borders so upon the marvelous we could not believe it did we not personally know nearly all the parties.

Anyone can be convinced by writing to parties in either of the places we have named of the full and entire truth of this most wonderful transformation, which puzzles not only the medical, but the entire scientific world, and which fact appears now for the first time in print, though the particulars have long been known to us and to many other newspaper men and prominent citizens of the State, as to nearly all the citizens of Brodhead, where all the parties so long resided.—*La Crosse Democrat.*

Burlesque on the Man-woman Story.

From the Muscatine Courier, February 7th.

Our readers have doubtless perused a yarn from the *La Crosse Democrat*, concerning the transformation of a woman into a man. This is entitled a "strange story," and rightly, too, for it is strange; but we know of one that beats it. In Montpelier Township, in this county, reside an aged couple by the name of Rose. These two individuals take it turn about. That is, every three years the woman becomes a man, and during the same three years the man changes to a woman. Strange as it may seem, there are some dozens of people in this county who stand ready to verify this statement with an affidavit. These two unfortunate beings were married in 1818. In 1849 the woman gave birth to a child which died. Shortly after the birth of this child, the parents began to change sexes. A separation followed, and the parties moved from Tennessee, where they then resided, one to Illinois, the other to Kentucky. In 1851, the change having become complete in both, they were again brought together by friends. They fell in love a second time and were married, the former husband, this time being the wife, and vice versa. In 1852 the former husband, and now wife, presented the former wife and now husband, with a female child. This child is now 16 years old. She is also troubled in the same way, often changing sex in a single night. She never knows, when she goes to bed, but she will wake up in the morning and find herself a boy, and is not certain when he gets up in the morning whether he is a man or a woman. When the changes begin to come on, she does the proper apparel of her (or his) sex.

This may seem a tough story, but it is vouched for by a large number of reliable persons. But to return to her parents. At intervals of three years the change of sex described above has taken place regularly. The couple now have five children, three of which call the original father mother and two of which call the original mother father. These children are all liable to occasional and complete changes of sex, but not of so sudden a nature as mark the status of the oldest boy (or girl). A good story is told of a young darkey who was not acquainted with the family falling. Meeting the girl at a party one evening, he fell violently in love with her, escorted her home, and on the way solicited and obtained permission to call again. The next evening found him promptly at the house of his sweetheart. Imagine, kind reader, the astonishment of this prospective citizen when he found his daughter arrayed in boys' clothes, and sporting an incipient mustache on what the evening before was the smooth, rosy upper lip. Two days later he came again, and found his Mary John (for that was the name given by the conscientious parents) once more the blooming lass, without even the semblance of a man. Taking one look at her, the astounded youth rushed from the house and never went near it again, for fear, as he said, "that he might get to be a gal himself." Of the truth of this last circumstance we are not so certain, but we again assure our readers that the remainder of our story is as true as fact can make it.

A Great French physician says: "More than half of the disease in the world comes from neglect to fortify the system against changes of climate, weather and food. The great secret of health is to keep the condition of the stomach and blood regular and uniform, so that changes from Heat to Cold, from Dry to Damp, etc., cannot upset the machinery of the body and breed disease."

No, it is a fact, positive and well-known, that there is no such bulwark and assistant for the stomach as

PLANTATION BITTERS.

This splendid Tonic is now used by all classes of people for every symptom of "Stomach out of order."

The secret of it is this: Plantation Bitters are certain to correct the juices of the stomach, set all its machinery at work and enable it to resist and throw off the approaching danger. The tendency of the operations of Nature is always towards a cure; all she needs is a little assistance at the proper time. If much more reasonable and sensible it is to help her along with a gentle, yet powerful Tonic, than to deluge and weaken and defeat her curative processes with poisonous drugs and fiery mixtures, which only supply and plant the seeds of disease and death.

Important Certificates.

"I owe much to you, for I verily believe the Plantation Bitters have saved my life."

Rev. W. H. WAGGONER, Madrid, N.Y.

"Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use. Thy friend,

ASA CURRIE, Philadelphia, Pa."

"I have been a great sufferer from dyspepsia and but to obtain relief."

Rev. J. S. CATKINS, Rochester, N.Y.

"I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect."

Superintendent Soldiers' Home, Cincinnati, O."

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted Nature's great restorer. The public may rest assured that in no case will the perfectly pure standard of the Plantation Bitters be departed from. Every bottle bears the fac-simile of our signature on a steel plate engraving, or it cannot be genuine.

Be careful of the name. Plantation Bitters in bulk or by the gallon, is a swindler and impostor. Beware of cheap bottles. See that our Private Stamp is Universal over every cork.

FLEAS.

LYON'S MAGNETIC INSECT POWDER is sure and certain death to everything of the insect species—Fleas, Raches, Mosquitoes, Anis, Bugs.

IT KILLS INSTANTLY.

What is peculiarly surprising in regard to this article is, that notwithstanding its instant death to insects, it is perfectly harmless to mankind and domestic animals. It can be inhaled or eaten with impunity. It bears the testimony of eminent disinterested chemists that it is

FREE FROM POISON.

No article has ever given such positive satisfaction in its use.

Its reputation is well known. It is easily and readily used—directions accompany each flask. Beware of counterfeits.

The genuine has the signature of E. LYON, and the private stamp of DEMAS BARNES & Co. Anything else of this kind is an imitation or counterfeit. Any druggist will procure the genuine if you insist you will have no other.

Sold by all Druggists and dealers on the Pacific coast.

MEXICAN MUSTANG LINIMENT.

It is an admitted fact that the Mexican Mustang Liniment performs more cures in a short time, on man and beast, than any article ever discovered.

No compound has ever been invented so efficacious and useful in curing

RHEUMATISM, SORE THROAT, BURNS, BRUISES, SWELLINGS, FRESH CUTS OR WOUNDS.

Or any other complaints requiring an external application.

It is an indispensable and valuable remedy in all cases of Acacia, Spinal, Ring-bone, Wind Gallop, Strains, &c.

It should be kept in every house, camp and stable. Accidents will occur. Promptness is efficacy.

All genuine is wrapped in steel-plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private stamp of DEMAS BARNES & Co. over the top.

An effort has been made to counterfeit it with a cheap soap suds label. Look closely!

Sold by all Druggists and Store in every town and mining camp on Pacific coast.

The Squadron Regatta.

Thursday proved the most delightful day of the season. The sun shone brightly and all nature seemed to smile upon the endeavors of the gentlemen connected with Her Majesty's Squadron on this station to contribute to the recreation and enjoyment of the colonists. In every respect the Regatta was an undoubted success—in the favoring state of the weather, in the kind manner in which Rear Admiral Hastings and his gallant officers received and entertained their guests and in the interesting and exciting aquatic contests which came off. Not a circumstance occurred to mar the pleasures of the day. From an early hour in the morning Esquimalt harbor was dotted with boats of every size and shape, filled with spectators anxious to witness the sport. The vessels comprising H. M.'s Squadron, were gallantly decked with flags and streamers, and every bit of bunting on shore was thrown to the breeze. On the flagship were assembled the lady and gentleman guests of the officers, who watched with absorbing interest the lively scenes passing around them, or, impelled by the seductive strains of the Zealous band, mingled in the mazy dance. Boats of every class and model, rowed by crews grotesquely attired, darted hither and thither over the surface of the water. An amateur negro minstrel band favored the spectators with an occasional melody. Old Neptune and Mrs. Neptune were represented by two sailors, one of whom in his hand the identical trident that once possessed so many terrors for novices when making their initial trip "across the line." On all sides reigned mirth and joviality. "Dull care" was thrown to the winds, and all aimed to be as happy as possible themselves and to make everybody around them equally happy.

The boats in the first race started shortly after one o'clock. The course rowed was from the gunboat Forward, anchored just within the mouth of Esquimalt harbor, around a boat anchored off Magazine Island and back to the stern of the flagship Zealous. It was originally intended that five boats should contest for this first prize, but in consequence of some misunderstanding the Camaleon's two cutters did not get off, so the Admiral's barge and the first and second cutters of the Zealous went it alone. The three boats dashed off at the boom of a gun from the Forward, and proceeded swiftly up the harbor. At the start the first cutter was the favorite; but soon after rounding the boat off Magazine Island it became evident that the barge must win, which she did, passing under the stern of the Zealous far in advance of her competitors, and receiving the hearty plaudits of the spectators as she rounded to. For the second race the Reindeer's first and second cutters and the Sparrowhawk's first cutter started. The boats kept well together until their noses were pointed homewards, when the Reindeer's first cutter rapidly increased the distance between herself and the other boats and reached the winning post nearly half a minute ahead of the Sparrowhawk's cutter, the third boat being "nowhere." The third race—the contest of the day—was between the Zealous' launch, pinnace and life-boat, and Nos. 3 and 4 harbor pinnaces. The boats were off at the sound of the cannon, No. 3 pinnace leading the van, the launch bringing up the rear at least seven lengths behind the boat in advance. Away the boats dashed past the Forward and Camaleon as they lay at anchor, the small craft that dotted the surface of the harbor hastening to "clear the track" and afford the contestants a "fair field." The boats passed swiftly into the narrow neck, towards Magazine Island, the crews straining every nerve.

The launch rapidly overtook the life-boat and No. 3 pinnace, and the boats passed out of sight behind a bill of rocks. When next they shot into view the launch occupied the second position in the race—the first pinnace still well ahead, and No. 4 pinnace several lengths behind. In rounding the stakeboat the first pinnace led. On the homeward stretch the interest manifested was intense. The contest had narrowed down to a struggle between the launch and the first pinnace. Every glass was leveled at the swiftly-advancing boats. The spray at each dip of the oars gleamed in the bright sunlight like a shower of pearls—the rowers keeping time with rapid, yet methodical stroke as the craft rose and fell beneath the influence of the brawny arms that propelled them. On came the two boats—the first pinnace twenty lengths ahead; the launch gaining ground slowly but surely, and her men exerting every muscle to win the day. Past the last point that cuts them off from the anxious gaze of the multitude, and out come the boats into full view of all. A cheer arises. The pinnace is ten lengths ahead, but the launch is gaining—surely gaining. "Pull, boys, pull! One more dash!" scream the coxswains, and the "boys" apply themselves with redoubled energy to their work, the stout ash blades bending with the force of the Herculean strokes. On and on they come—the waters seething beneath the bows and kissing as if in resentment at being thus disturbed. Scarce 200 yards remain to be rowed; if victory be achieved by the launch it must be within the next half minute. Only six lengths behind—and the pinnace crew exhausted! "One more dash, boys, and victory is yours!" On comes the great launch, closing rapidly the gap. Victory seems assured, when the pinnace crew suddenly rouse themselves for a final struggle, bend again to their work, and with a few well-directed strokes run under the stern of the Zealous, gaining the day by four boats' length. Three hearty cheers for the gallant crew ring out from the big ship, the tired men drop their oars, and the boats, which a moment before seemed endowed with life, float a idly as logs on the glassy surface of the harbor. The fourth race—between the Zealous' Reindeer's, Sparrowhawk's and Camaleon's

second giga—was won by the Sparrowhawk's gig with apparent ease. For the fifth race the Admiral's galley, Beaver's whaler and Camaleon's first gig were entered—the Camaleon winning with scarcely an effort. The sixth race was between the Reindeer's pinnace and the Camaleon's pinnace—the former winning. This race was well contested throughout—the Reindeer's only winning by about two boats' lengths. In the seventh race—cutters pulled by Marines—the Zealous' boat carried off the prize. The eighth (or dingy) race was won by the Sparrowhawk. The ninth race—in which four-oared gigs were rowed respectively by officers from the Reindeer and Zealous—was won by the crew of the former. The tenth race was between the copper punts of the Zealous, Sparrowhawk and Reindeer, each propelled by five or six men armed with stoker's shovels. These punts are queer looking specimens of Naval architecture. They resemble an octagonal box and are used while cleaning the ship's copper. The race was in the highest sense grotesque and amusing. The punts were instructed to start from the bow of the flagship, row around the Reindeer and back to the point of departure. The Sparrowhawk's punt took the lead and maintained it throughout, the Reindeer followed next in order and the Zealous far behind. The appearance of the men (who were attired in fancy costumes) and the strange appearance of the craft reminded one forcibly of the story of the "three wise men of Gotham who put to sea in a bowl." And a wash-bowl the Reindeer's punt in truth proved, for midway between the Zealous and Reindeer a shout and a splash were heard, the Reindeer's punt went down headfirst, and in less time than it takes to tell it half-a-dozen brave fellows were struggling for dear life in the cool waters of the harbor. They were all rescued by boats that went to their assistance. Victory rested with the Sparrowhawk, amid the cheers and laughter of the spectators. For the sailing race a large number of boats started; but after rounding the stake-boat, the breeze, which had been light all day fell to a dead calm, and the boats remained lazily floating with the tide until the crew in the Zealous pinnace hit upon the novel device of attaching a line to the stern of the boat and hauling on it with all their strength, the coxswain, meanwhile, working the rudder violently. The device imparted a rocking motion to the boat and by it she was finally enabled to come in winner.

With this race the day's sport ended and the guests retired early in the evening, having passed one of the pleasantest days it had been their lot to enjoy for many years. Admiral and Mrs. Hastings were assiduous in attention to their guests, who were also courteously received and entertained on board the noble iron-clad by Capt. Dawkins, Commander Liddell, Flg. Lieut. Brooke, and the other gentlemen connected with the Committee of Management.

DEPARTURE OF THE CALIFORNIA.—The mail steamer California sailed for San Francisco at 11 o'clock yesterday morning, having on board 78 passengers and a full freight of coal, furniture and merchandise. Col. Buckley and Mr. Chappell, of the Western Union Telegraph Company, Rev. Dr. Evans, Mrs. Evans and daughter, C. C. Pendergast, J. H. Turner, Mr. Lawson, H. Fowler, A. T. Blake, Mr. and Mrs. Pidwell, John Glassey, Mrs. Erskine, J. S. Drummond, Mr. and Mrs. Brodick and Mrs. Zeller, were among the passengers. The number of people that assembled on the wharf to say good bye to friends was large, and the scene animated and affecting.

THE CIRCUS.—To-day Mr. Bartholomew makes his last appearance in this town, and we are glad to notice he intends to give an afternoon performance at two o'clock at half price. We hope this opportunity will not be neglected by families, as we can assure the young folks they will have a rich treat. In the evening the last exhibition will comprise the favorite acts of the troupe, including Mr. Franklin the somersault rider, Miss Matilde, and the well educated ponies, when the sensation after piece of Dick Turpin will be produced.

NO PUBLIC demonstration was made over the announcement that Victoria had been selected as the Capital by the Legislative Council. A few flags were flown to the breeze, but beyond that nothing worthy of note took place. The feeling of satisfaction on all sides, however, is very great, and the congratulations though quiet were none the less heartfelt and sincere.

ARRIVAL FROM SAN FRANCISCO.—The American brig Hallie Jackson, Captain Poole, arrived yesterday morning from San Francisco. She has a full cargo of goods, and is on a trading voyage to the Asiatic coast, for which territory she sail in a day or two. We are under obligations to Captain Poole for a full file of late papers. The vessel is consigned to Millard & Beedy.

CRICKET.—The first match of the season will come off at Beacon Hill on Monday, April 6th, between Victoria and the Fleet. Wickets pitched at 10:30. Victoria, Charles Clark, captain, Dewdney, Walker, Wilson, Barnett, Guerra, C. Green, Tye, Howard, Bal, Drake.

A PAPER HUNT, under the auspices of officers of the Squadron, has been arranged for to-day. The hares—Flag-Lieutenant Brooks and Mr. K. McKenzie, jr.—will start from the Naval Clubhouse at 1½ o'clock p. m. It is hoped there will be a full attendance from the city.

THE STEAMER Enterprise sailed for New Westminster yesterday morning at 10 o'clock. Among her passengers were Chief Justice Needham, Rev. E. White, J. Polmere, R. Holloway and a large number of miners bound for Cariboo.

THEATRICAL.—Mr. Marsh, the enterprising Manager and Lessee of the Theatre Royal, has engaged a theatrical company at San Francisco to play here during the season. The company is expected in the next steamer.

CALISTHENICS & DANCING.—Mrs. Palmer's Juvenile Class, Mondays and Thursdays, at 3½ o'clock, at Mrs. Wilson Brown's, Church Bank House.

REDUCTION.—We have reduced our rates on Letters to Great Britain from Fifty to Thirty-Seven and a Half Cents per ½ oz.

PARDONED.—Tomlinson, who shot at Marks and was sentenced to two years' imprisonment, has been pardoned by Gov. Seymour.

WE HAVE THE PROOF! That Bristol's Sarsaparilla and Pills are reliable and certain remedies for heart disease, rheumatism, dyspepsia, liver complaint and scrofula in all its different forms and stages. Physicians of the highest standing have certified to these facts, and we invite all who entertain doubts to read our Bristol's Almanac, circulated free in this country, wherein are published the certificates in full.

THE LEADING PERFUME OF THE AGE!

From Fresh Colled Flowers.

MURRAY & LANMAN'S

CELEBRATED

Florida Water.

This exquisite Perfume is prepared direct from Bloom ing Tropical Flowers, of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a Delightful Buoyancy to the overtaxed Body and Mind, particularly when mixed with the water of the Bath. For

Painting Turns, Nervousness, Headache, Debility, And Hysteria.

It is a sure and speedy relief with the very turn of Fashion; it has for 25 years maintained its ascendancy over all other perfumes, throughout the West Indies, Cuba, Mexico and Central and South America, and we confidently recommend it as an article which, for the delicacy of flavor, richness of bouquet, and permanence, has no equal. It will also remove from the skin

Roughness, Blotches, Sun Burn, Freckles, And Pimples.

It is as delicious as the Otto of Roses and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

French Medicines,

PREPARED BY

GRIMAULT & CO.

Chemists to H.I.P. Prince Napoleon,

PARIS.

These different medicines represent the most recent medical discoveries, founded on the principles of Chemistry and Therapeutics. They must not be confounded with secret or quick medicines, as their names sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the Faculty in the whole world. They widely differ from those numerous medicines advertised in the public papers as able to cure every possible disease, as they are applicable only to but a very few complaints. The most stringent laws exist in France with regard to the sale of medical preparations, and only those which have undergone an examination by the Academy of Medicine and have been proved efficacious, either in the hospitals or in the practice of the first medical men, are authorized by the Government. This fact must be a guarantee for the excellence of Messrs. Grimault & Co.'s Medicines.

NO MORE COD LIVER OIL!

Grimault's Syrup of Iodized Horse Radish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for Cod Liver Oil, and has been found most beneficial in Diseases of the Chest, Scrofula, Lymphatic Disorders, Green Sickness, Muscular Atony, and Loss of Appetite. It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in Diseases of the Skin. Further, it will be found to be of great benefit to young children subject to Humors and Obstructions of the Glands.

CONSUMPTION CURED!

Grimault's Syrup of Hypophosphite of Lime.

This new medicine is considered to be a sovereign remedy in case of Phthisis and other Diseases of the Lungs. It promptly removes the most serious symptoms. The cough is relieved, night perspirations cease and the patient is rapidly restored to health.

N.B.—Be sure to see that the signature of Grimault & Co. is affixed to the bottle, as this Syrup is liable to imitations.

NO MORE DIFFICULT OR PAINFUL DIGESTION!

DR BURIN DU BUISSON'S

(Laureate of the Paris Imperial Academy of Medicine)

DIGESTIVE LOZENGES

This delicious preparation is always prescribed by the most reputed medical men in France in cases of derangement of the functions of the Digestive System.

Gastritis, Gastralgia, Long and Laborious Digestion, Wind in the Stomach and Bowels, Eructation, Jaundice, and Complaints of the Liver & Lungs

NERVOUS HEADACHE, NEURALGIA, DIARRHOEA, DYSENTERY,

INSTANTLY CURED BY

Grimault's Guarana.

This vegetable substance, which grows in the Brazilia has been employed since time immemorial to cure inflammation of the Bowels. It has proved to be of the greatest service in cases of Cholera, as it is a preventive and a cure in cases of Diarrhoea.

NO MORE COPAIBA OR CUBEBS!

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all other preparations have failed these preparations will always effect a cure. These insure rapid and extraordinary cure of severe recent and chronic cases of private diseases. They are used in the hospitals of Paris, by the celebrated Dr. Ricard, and found greatly superior to all hitherto known mineral remedies and Copaiba and Cubebs. The Injection is used in recent, and capsules in more chronic cases.
